Specialities

It isn't necessary
to be a giant to provide you with
attractive diagnostics.

Diagnostics

In diverse therapeutic fields with multiplexing gene-based diagnostics of infectious disease agents :

www.prodesse.com, www.minerva-biolabs.com

Coagulation, immunohistochemistry & cancer products :
www.americandiagnostica.com

For Cardiology and cardiovascular diseases (CVD), tests of the acute Myocardial infraction (AMI), CARD-i-KIT Immunochromatographic IVD tests :

www.aboatech.fi

For Ophthalmology with Indocyanine green Angiography and Fluorescein Angiography for imaging of Chroidal Neovascularization :

www.akorn.com

For Urology and Gynaecology with Indigo Carmine :

www.abpcorp.com

For Hemophilia and vWD with Ristocetin and other diagnostic products :
www.abpcorp.com

Inorganic Products

metals, alloys, intermetallics, oxides, salts, refractory compounds, phosphides, sulfides, tellurides, selenides, rare earth materials, ...

Services

○ You want to outsource part of your work?

- Synthesizing products
- Producing grams of antibodies
- Developing a new way to analyze your products
- Technology transfer

We can help you find the best added value solution.

Please contact us to get a quotation (we work with a secrecy agreement)

○ TECHNOSA SA is your specialist for industrial pumps, transport rollers, special spare pieces, ...

TECHNOSA SA is a partner of SOCOCHIM SA groupe.
